

# **ROAD GULLY GRATES TO**

## **AUSTRALIAN**

# **SAFETY STANDARD 3996**

**OUR NEW GENERATION OF ROAD GULLY GRATES  
ENSURE SAFETY AND PROTECTION FOR ROAD USERS.**

**Approved for use by the Queensland Department of Transport**

- **The most advanced design in the country, embracing all safety features as required by AS 3996, including self locking innovation which prevents accidental closure of the grate when in an open position, as well as locking it in a closed position.**
- **Absolute compliance to Australian Standard 3996 which has become mandatory for acceptance with most councils and engineers.**
- **Manufactured with heavy load bars for long life with wide spacing between bars for hydraulic efficiency.**
- **Certified by QUT Laboratories for strength and axle loadings.**
- **Tested by Professor Argue of the South Australian University, Urban Water Resources Centre for Hydraulic catchment data.**
- **Manufactured in sizes to suit all pits and drainage systems.**
